

Sapphire AMD Workstation News Update--April
[2009/04/13 Taipei] Announced by—Sapphire Technology

Index

1. Driver Update: Version 8.583
2. New Product: 3D Graphics--FirePro V7750
Multi-View--FirePro 2450
3. New ATI FirePro™ Testamonials: Video Show on Youtube
4. ATI FirePro & CATIA Successful Story
5. ISV Certification: Driver: V8.563/ V 8.543.1.4/ V 8.543.1.3 /V 8.543

@Driver update: Version 8.583 (update by April.9, 2009)

New Product Support

ATI FirePro™ V7750 3D Graphics
ATI FirePro™ 2450 Multi-View

New Features Supported

OpenGL 3.0. API now fully supported on capable ATI FireGL and ATI FirePro graphics cards

Release note:

@ ATI FirePro & CATIA Successful Story

ATI FirePro delivers exceptional large-model performance in CATIA with Vertex Buffer Objects (VBO)
 “Customers can turbo-charge their ATI FirePro and FireGL cards for free and unleash power that could enable them to work fluidly with huge assemblies rather than having to break them down into manageable chunks.”

[Read the Develop3D Article on Catia and VBO](#)

SAPPHIRE About Sapphire Technology

Sapphire Technology Ltd designs, manufactures and distributes the most complete range of ATI Radeon™ based video graphics accelerators worldwide. Additionally Sapphire produces mainboards based on AMD chipset technology. Sapphire is based in Hong Kong with two ISO9001 and ISO14001 manufacturing facilities in Dongguan, China. The factories have a total capacity of 1.8 million graphics boards per month. Sapphire currently employs over 3000 employees worldwide with local representation in North America, Europe, South Africa and Asia Pacific.

2007, Sapphire has been authorized to be the exclusive partner of AMD ATI FireGL™ Workstation Graphics in APAC except Japan. This great affirmation shows Sapphire's achievement and offering, Sapphire will provide best service to professional customer with the best workstation products.
