

**For APAC Immediate Release Only**

**Sapphire Technology Introduces the ATI FirePro™ V7750 – Newest High-End Workstation Graphics with Blazing Application Performance**

**GDDR3 1GB Memory, 320 Unified Shader, Single Slot with Display Port and Dual Link DVI Output support**

**Taipei – Mar.30, 2009** – Sapphire Technology today announced the availability of the [ATI FirePro™ V7750](#) Workstation Graphics accelerator for the high-end market, ideally suited for graphics professionals working in engineering, digital content creation and scientific fields. [ATI FirePro™ V7750](#) based on a new generation GPU with 320 unified shader units, and features two DisplayPorts and one Dual-Link DVI-I outputs, which together, generating a multi-monitor desktop of over 5K pixels wide in a **single slot** form factor. **Built-in GDDR3 1GB large frame buffer memory** which is ideally suited for users who work with large models and complex data sets plus a 30-bit display pipeline. In addition, with native multi-card support, users can see more and do more using four displays being driven by two ATI FirePro products in the same workstation. [ATI FirePro™ V7750](#) also supports the [ATI Stream applications](#), utilizing the GPU to offload the CPU for specific compute-intensive workloads.

[ATI FirePro™ V7750](#) are thoroughly tested and certified with major CAD and DCC applications, ensuring a level of reliability. [ATI FirePro™ V7750](#) can be also operated in a wide range of professional operating environments, including Microsoft Windows® XP, Windows Vista® and Linux. The ISV Certification list as below:

ISV	Application/Version	Certification
Autodesk	AliasStudio 2009 SP1	Certified
	SOFTIMAGE XSI 7.0	Certified

	<b>Maya 2008/2009</b>	<b>Certified</b>
	<b>AutoCAD 2010 <span style="background-color: red; color: white; padding: 2px;">NEW</span></b> <b>AutoCAD 2008/2009</b>	<b>Certified</b>
	<b>Motionbuilder 2009</b>	<b>Certified</b>
	<b>Inventor 2008/2009</b>	<b>Certified</b>
	<b>Mudbox 2009</b>	<b>Certified</b>
<b>Dassault Systemes</b>	<b>SolidWorks 2008</b>	<b>Certified</b>
	<b>SolidWorks 2009</b>	<b>Certified</b>
<b>MSC.Software</b>	<b>MSC. Patran 2008</b>	<b>Certified</b>
<b>ANSYS</b>	<b>Fluent</b>	<b>Certified</b>

Except the ISV partners Certifications, [ATI FirePro™ V7750](#) also won the design partners' good compliments:

--"Creating astounding visuals for movies is a tremendous challenge – it has to look absolutely perfect, but time is always of the essence," said Jabbar Raisani, visual effects expert, Troublemaker Studios. "The ATI FirePro V7750 graphics accelerator helps me achieve that flawless scene faster by speeding rendering to let me focus on creating content rather than waiting for it. I need stable and robust performance graphics hardware to get the job done quickly and the ATI FirePro V7750 is the perfect solution."

--"Now that AMD has a powerful graphics processing as part of its portfolio, I have an entire platform at my disposal that has finally caught up to my artistic needs," said Robert Rodriquez, Director, Troublemaker Studios. "AMD has the right tools to keep up with my speed of thought – I don't like waiting for technology to catch up with me. Now I can be creative with confidence in the performance of both my actors and my computer hardware."

--AMD technology helps me stay ahead of the artistic curve. The new workstation graphics are playing a key role in the realization of my upcoming movies," said Robert Rodriquez, Director, troublemaker Studios.

--"SolidWorks® users demand products with superior performance, such as the ATI FirePro V7750, to enable real-time rendering but without the traditional hang-ups," said Nick Iwaskow, Manager of Alliances, Dassault Systèmes SolidWorks Corp. "The top-to-bottom feature set and performance of the new ATI FirePro™ product family can give our SolidWorks

*users the efficiency to boost productivity and creativity.”*

With all those good using experiences from partners, we know [ATI FirePro™ V7750](#) is well positioned in the high-end segment of the market, and will deliver the outstanding performance with reasonable price.

## **SAPPHIRE About Sapphire**

Sapphire Technology Ltd designs, manufactures and distributes the most complete range of ATI Radeon™ based video graphics accelerators worldwide. Additionally Sapphire produces mainboards based on AMD chipset technology. Sapphire is based in Hong Kong with two ISO9001 and ISO14001 manufacturing facilities in Dongguan, China. The factories have a total capacity of 1.8 million graphics boards per month. Sapphire currently employs over 3000 employees worldwide with local representation in North America, Europe, South Africa and Asia Pacific.

2007, Sapphire has been authorized to be the exclusive partner of AMD Workstation Graphics (ATI FirePro™, ATI FireGL™, ATI FireMV™), and AMD FireStream in APAC except Japan. This great affirmation shows Sapphire's achievement and offering, Sapphire will provide best service to professional customer with the best workstation products.
